

The background of the image is an abstract composition of textures. It features a central, dark, almost black, irregular shape that resembles a shadow or a deep crevice. This central shape is surrounded by a vibrant, textured red that has a slightly grainy, organic quality, similar to rust or a mineral surface. The overall effect is one of depth and contrast, with the dark center drawing the eye inward from the surrounding red.

Abstract Bell #2

Rui Pereira Jorge 2018

Electroacoustic composition

Bell sounds that are decomposed into tiny particles, being progressively regrouped and combined in different ways.
